

Technical Information Sheet

(last update: 2019-10-05)

Important Notice:

According to viennese law, the volume limit of 100dBA SPL must not be exceeded throughout the whole duration of the performance. Is this rule not adhered to, the municipal department is permitted to interrupt and/or terminate the show at any time. We are therefore providing a professional PC based measurement system at the mixing position to ensure permanent control of SPL.
